SCHEDULE AT A GLANCE COURSE FORMATS

For more detailed information, click [here](#).

Online Learning

- Synchronous (Sync)
These online courses feature a real-time, virtual classroom element, where students and instructors 'attend' scheduled online lectures, and interact at the same time. For these virtual classroom sessions, students will require a computer with both audio input and output (such as a microphone-equipped headset)
- Asynchronous (Asyn)
A flexible online experience, where you will move through the course material and activities at the same pace as the rest of the class. There are no real-time virtual classroom sessions to attend.

Face-to-Face/Web-Enhanced (F2F/WE)

Face-to-face (i.e. in-person, or "traditional") classes may take place in downtown Edmonton, AB at Enterprise Square, or at other locations across the province (check course notes for details).

Any face-to-face class may be web-enhanced, requiring access to online course materials.

***Note:** F2F/Web-Enhanced courses have a post assignment due two weeks after the last in-class date via eClass. The class dates are the in-person dates to attend the course, and the course dates include the two week time frame to complete the post-assignment. For more specific information about the classes, visit our website.

Bring Your Own Device (BYOD)

Students are encouraged to bring their own laptops or tablets to class. Please visit ualberta.ca/extension/BYOD for further information.
